## INTRODUCTION

This document contains a list of the federal Food and Drug Administration (FDA) approved drugs covered for Sharp Health Plan Members under the FEHB pharmacy outpatient prescription drug benefit, and is also known as the Formulary. The outpatient prescription drug benefit covers outpatient drugs provided to Members through a network retail, specialty or mail order pharmacy. Drugs covered under the pharmacy benefit are generally oral or topical medications, unless otherwise listed on the Formulary. The presence of a drug on the Formulary does not guarantee that it will be prescribed by your Prescribing Provider for a particular medical condition. Refer to the end of this Introduction for information about drug benefit exclusions for the outpatient prescription drug benefit.

If you are in an HMO plan, you should contact your provider for information on how to obtain vaccines. If you are in a Point of Service (POS) plan, you can get vaccines at a network retail pharmacy. Please refer to your FEHB Brochure for additional information. If you have questions regarding your outpatient prescription drug benefit, please call our Customer Service department at 1-855-298-4252.

A Medical Benefit drug is a drug that is physician administered or is self-injectable. Medical Benefit drugs are covered under the Medical Benefit. Refer to the FEHB Brochure for specific information about the Cost Shares, exclusions and limitations for these drugs covered under your Medical Benefit:

1. Medically Necessary formulas and special food products prescribed by a Plan Physician to treat phenylketonuria (PKU), provided that these formulas and special foods exceed the cost of a normal diet.
2. Medically Necessary injectable and non-injectable drugs and supplies that are administered in a physician's office and self-injectable drugs covered under the medical benefit.
3. Immunization or immunological agents, including, but not limited to: biological sera, blood, blood plasma or other blood products administered on an outpatient basis, allergy sera and testing materials.
4. Equipment and supplies for the management and treatment of diabetes, including insulin pumps and all related necessary supplies, blood glucose monitors, testing strips, lancets and lancet puncture devices. Insulin, glucagon and insulin syringes are covered under the outpatient prescription drug benefit.
5. Items that are approved by the FDA as a medical device. Please refer to the FEHB Brochure for information about medical devices covered by Sharp Health Plan.

## DEFINITIONS

Defined terms are capitalized throughout this Formulary and have the meaning set forth below throughout this Formulary.

**"Appeal"** is a written or oral request, by or on behalf of a Member, to re-evaluate a specific determination made by Sharp Health Plan or any of its delegated entities (e.g., Plan Providers).

**"Brand-Name Drug"** is a drug that is marketed under a proprietary, trademark-protected name. The Brand Name Drug shall be listed in all CAPITAL letters.

**"Coinsurance"** is a percentage of the cost of a Covered Benefit (for example, 20%) that an Enrollee pays after the Enrollee has paid the Deductible, if a Deductible applies to the Covered Benefit, such as the prescription drug benefit.

**"Copayment"** is a fixed dollar amount (for example, \$20) that an Enrollee pays for a Covered Benefit after the Enrollee has paid the Deductible, if a Deductible applies to the Covered Benefit, such as the prescription drug benefit.

**"Deductible"** is the amount an Enrollee pays for certain Covered Benefits before Sharp Health Plan begins payment for all or part of the cost of the Covered Benefit under the terms of the policy.

**“Drug Tier”** is a group of Prescription Drugs that corresponds to a specified cost sharing tier in Sharp Health Plan’s Prescription Drug coverage. The tier in which a Prescription Drug is placed determines the Enrollee’s portion of the cost for the drug.

**“Enrollee”** is a person enrolled in Sharp Health Plan who is entitled to receive services from the Plan. All references to Enrollees in this Formulary template shall also include Subscribers as defined in this section below. An Enrollee is also referred to as a Member.

**“Exception Request”** is a request for coverage of a Prescription Drug. If an Enrollee, his or her designee, or prescribing health care provider submits an Exception Request for coverage of a Prescription Drug, Sharp Health Plan must cover the Prescription Drug when the drug is determined to be Medically Necessary to treat the Enrollee’s condition. Drugs and supplies that fall within one of the outpatient prescription drug benefit exclusions described in the FEHB Brochure are not eligible for an Exception Request.

**“Exigent Circumstances”** are when an Enrollee is suffering from a health condition that may seriously jeopardize the Enrollee’s life, health, or ability to regain maximum function.

**“Formulary”** is the complete list of drugs preferred for use and eligible for coverage under a Sharp Health Plan product, and includes all drugs covered under the outpatient prescription drug benefit of the Sharp Health Plan product. Formulary is also known as a Prescription Drug list.

**“Generic Drug”** is the same drug as its brand name equivalent in dosage, safety, strength, how it is taken, quality, performance, and intended use. A Generic Drug is listed in bold and italicized lowercase letters.

**“Grievance”** is a written or oral expression of dissatisfaction regarding Sharp Health Plan, a provider and/or a pharmacy, including quality of care concerns.

**“Nonformulary Drug”** is a Prescription Drug that is not listed on Sharp Health Plan’s Formulary.

**“Out-of-Pocket Cost”** are Copayments, Coinsurance, and the applicable Deductible, plus all costs for health care services that are not covered by Sharp Health Plan.

**“Prescribing Provider”** is a health care provider authorized to write a Prescription to treat a medical condition for a Sharp Health Plan Enrollee.

**“Prescription”** is an oral, written, or electronic order by a prescribing provider for a specific enrollee that contains the name of the prescription drug, the quantity of the prescribed drug, the date of issue, the name and contact information of the prescribing provider, the signature of the prescribing provider if the prescription is in writing, and if requested by the enrollee, the medical condition or purpose for which the drug is being prescribed.

**“Prescription Drug”** is a drug that is approved by the federal Food and Drug Administration (FDA) that is prescribed by your Prescribing Provider and requires a prescription under applicable law.

**“Prior Authorization”** is Sharp Health Plan’s requirement that the Enrollee or the Enrollee’s Prescribing Provider obtain the Sharp Health Plan’s Authorization for a Prescription Drug before Sharp Health Plan will cover the drug. Sharp Health Plan shall grant a Prior Authorization when it is Medically Necessary for the Enrollee to obtain the drug.

**“Step Therapy”** is a process specifying the sequence in which different Prescription Drugs for a given medical condition and medically appropriate for a particular patient are prescribed. Sharp Health Plan may require the Enrollee to try one or more drugs to treat the Enrollee’s medical condition before Sharp Health Plan will cover a particular drug for the condition pursuant to a Step Therapy request. If the Enrollee’s Prescribing Provider submits a request for Step Therapy exception, Sharp Health Plan shall make exceptions to Step Therapy when the criteria is met.

**“Subscriber”** means the person who is responsible for payment to Sharp Health Plan or whose employment or other status, except for family dependency, is the basis for eligibility for membership in the plan.

### **HOW OFTEN DOES THE FORMULARY CHANGE?**

The Sharp Health Plan Formulary is developed to identify safe and effective drugs for Members while maintaining affordable benefits. The Formulary and Drug Coverage Requirements and Limits are updated regularly, based on input from the Pharmacy and Therapeutics (P&T) Committee, which meets quarterly. The Formulary and the Drug Coverage Requirements and Limits are subject to change monthly as new clinical information and new drugs become available. The P&T Committee members are clinical pharmacists and actively practicing physicians of various medical specialties. The P&T Committee frequently consults with other medical experts for input to the Committee.

The P&T Committee evaluates clinical effectiveness, safety and overall value through:

- Medical and scientific publications
- Relevant utilization experience
- Physician recommendations

### **WILL I BE NOTIFIED OF A FORMULARY CHANGE?**

Sharp Health Plan will provide sixty (60) days written notice of a Formulary change to negatively affected Members. The notice will include the date the Member will be impacted by the change. Some examples of Formulary changes that will result in a notice to the member include, but are not limited to:

- A drug or dosage form is moved to a higher Drug Tier that results in an increase in cost sharing
- A drug or dosage form is removed from the Formulary
- Drug Coverage Requirements or Limits for a drug are added or changed

### **Changes to the Formulary that may occur without prior written notice to the Member include:**

- A drug is removed from the Formulary because it is removed from the market by either the drug manufacturer or the FDA
- A drug is added to the Formulary
- A drug is moved to a lower Drug Tier
- A Drug Coverage Requirement or Limit is removed from a drug
- A generic drug is added to the Formulary and the Brand Name drug is moved to a higher Drug Tier or removed from the Formulary

The drug formulary can be accessed by current and prospective Members. To view the most current Formulary, please visit [sharphealthplan.com/search-drug-list](http://sharphealthplan.com/search-drug-list).

### **HOW DO I LOCATE A PRESCRIPTION DRUG ON THE FORMULARY?**

Covered Prescription Drugs are listed alphabetically by Generic name and Brand-Name in the alphabetical Index.

Within the Formulary, drugs are listed alphabetically under the column titled “Prescription Drug Name” by its Brand or Generic name under the therapeutic category and class to which it belongs. If a generic for a Brand Name Drug is not available or is not covered, the Generic Drug name will not be listed separately by its generic name.

You can find a Prescription Drug on the formulary by looking for its Generic or Brand-Name alphabetically in the Index, or by looking for it in the Formulary, where it is listed alphabetically under the therapeutic category and class to which it belongs. Sharp Health Plan uses the MediSpan® classification system for therapeutic category and class. MediSpan® maintains the Master Drug Data Base of drug information for professionals in the health sciences. The Master Drug Data Base provides pricing and descriptive drug information on name brand, generic, prescription and OTC medications and herbal products and is updated daily.

### HOW DO I KNOW IF THE DRUG LISTED ON THE FORMULARY IS A BRAND OR GENERIC DRUG?

Brand-Name Drugs are listed in all CAPITAL LETTERS followed by the generic name in parentheses in (*lowercase bold italics*).

If a Generic equivalent for a Brand-Name Drug is available and is covered, the Generic Drug will be listed separately from the Brand-Name Drug in all *lowercase bold italics*.

When a Generic Drug is marketed under a Brand-Name, the Brand-Name will be listed in all capital letters after the Generic name in parentheses with the first letter of each word capitalized.

Here is how this is listed on the Formulary:

Drug Type	Listing on the Formulary
Brand-Name Drug and Generic-Name	FIBRICOR TAB 35MG ( <i>fenofibric acid</i> )
Generic-Name that is covered on the Formulary	<i>fenofibric acid tab 35mg</i>
Generic Drug marketed with a Brand-Name	(Amiodarone Hcl Tab 100 mg) PACERONE

Some drugs are commercially available as both a Brand-Name and a Generic-Name. Contracted pharmacies are required to dispense the Generic version of the drug, unless Prior Authorization for the Brand-Name Drug is obtained from Sharp Health Plan.

The Brand-Name listed in this document is for reference only and is not an indication that the Brand-Name Drug is covered by Sharp Health Plan, unless Sharp Health Plan has Authorized the Brand-Name Drug due to medical necessity or specifically noted.

### WHAT IS A DRUG TIER?

Each covered drug is assigned to a Drug Tier. The Drug Tier is a group of drugs that indicates what your Copayment or Coinsurance is for each drug. A Deductible may also apply. For information about your Copayments, Coinsurance and/or Deductible, please consult your benefits information available online by visiting [sharphealthplan.com/login](http://sharphealthplan.com/login) and log in to your Sharp Health Plan online account. When you create a Sharp Health Plan online account, you can easily access your benefit information online 24 hours a day, 7 days a week.

A preferred drug is a drug that the Pharmacy and Therapeutics Committee has determined provides greater value than its alternatives when considering clinical effectiveness, safety and overall value.

The Drug Tier is marked throughout this document by one of the following symbols:

Symbol	Drug Tier	Description
PV	PV	Select drugs covered with no Copayment when recommended for preventive use as indicated under Preventive Care Services, including certain generic and over-the-counter contraceptives for women.

1	Tier 1	Preferred Generic Drugs. These drugs are subject to your Tier 1 Copayment.
2	Tier 2	Preferred Brand-Name Drugs and inhaler spacers. These drugs and inhaler spacers are subject to your Tier 2 Copayment.
3	Tier 3	Non-preferred drugs (may include Brand Name or Generic Drugs). These drugs are subject to your Tier 3 Copayment.

### ARE THERE ANY COVERAGE REQUIREMENTS OR LIMITS?

Some covered Generic and Brand-Name Drugs have coverage requirements or limits on coverage. Symbols are used to identify drugs with a Coverage Requirement or Limit. The following symbols are used in this Formulary:

Symbol	Meaning	Description
PA	Prior Authorization	Requires Prior Authorization by Sharp Health Plan based on specific clinical criteria. See “What is Prior Authorization?” below for additional information.
PA**	Prior Authorization if Step Therapy is not met	Requires Prior Authorization by Sharp Health Plan based on specific clinical criteria, if Step Therapy criteria has not been met.
QL	Quantity Limit	Coverage is limited to a specific quantity per Prescription and/or time period. Prior Authorization is required for other quantities.
ST	Step Therapy	Coverage depends on previous use of another drug. Prior Authorization may be required. See “What Is Step Therapy?” below for additional information.
MO	Mail Order	A maintenance drug that is available for up to a 90-day supply and is eligible to be filled through mail order.
SP	Specialty	A specialty drug that must be filled by a pharmacy in the Sharp Health Plan Specialty Pharmacy network and is limited to a 30-day supply per fill.
OAC	Oral Anti-Cancer	An orally administered anticancer medication. Notwithstanding any Deductible, the total amount of Copayments and Coinsurance does not exceed two hundred fifty dollars (\$250) for an individual Prescription of up to a 30-day supply.

### WHAT IS PRIOR AUTHORIZATION?

Drugs with a PA symbol in the Coverage Requirements and Limits column of the Formulary are subject to Prior Authorization. Your Prescribing Provider must request Prior Authorization, or approval for coverage, from Sharp Health Plan by calling our Customer Service department, submitting a fax request, or submitting an electronic Prior Authorization Form. Once all the needed supporting information has been received, the Prior Authorization request will be either approved or denied based on our clinical policies within 72 hours for non-urgent requests, or

within 24 hours in urgent or Exigent Circumstances. Exigent Circumstances exist when a Member is suffering from a health condition that may seriously jeopardize the Member's life, health, or ability to regain maximum function. Sharp Health Plan will provide coverage for the Prescription, including refills, for the duration of the Prescription for non-urgent requests, and for the duration of the exigency for requests based on Exigent Circumstances.

If Sharp Health Plan denies a request for Prior Authorization, the Member, an Authorized Representative, or the Prescribing Provider can file an Appeal or Grievance. Information about this process is described in the section of the Formulary called, "You Have the Right to Appeal."

If Sharp Health Plan approved a Prior Authorization request for your medication and medical condition, Sharp Health Plan will not discontinue or limit coverage if your Prescribing Provider continues to prescribe it for the same medical condition, provided the drug is appropriately prescribed and is safe and effective for treating your medical condition.

### **WHAT IS PA\*\*?**

Drugs with a PA\*\* symbol in the Coverage Requirements and Limits column of the Formulary are subject to Prior Authorization based on specific clinical criteria if Step Therapy has not been met. There may be a situation when it is Medically Necessary for you to receive certain drugs without first trying the alternative drug. In these instances, your doctor may request a Prior Authorization by following the Prior Authorization process described above.

### **WHAT IS QUANTITY LIMIT?**

Drugs with a QL symbol in the Coverage Requirements and Limits column of the Formulary are subject to Quantity Limits. Quantity Limits exist when drugs are limited to a determined number of doses based on criteria, including, but not limited to, safety, potential overdose hazard, abuse potential, or approximation of usual doses per month, not to exceed the FDA maximum approved dose. A Member's Prescribing Provider may submit a request for a quantity of medication that exceeds the Quantity Limit by following the Prior Authorization request procedure stated above. Medical Necessity for the quantity requested must be provided. Once all of the required supporting information has been received, the Prior Authorization request will be either approved or denied within 72 hours for non-urgent requests or within 24 hours in urgent or Exigent Circumstances.

### **WHAT IS STEP THERAPY?**

Drugs with a ST symbol in the Coverage Requirements and Limits column of the Formulary are subject to Step Therapy. The Step Therapy program encourages safe and cost-effective medication use. Under this program, a "step" approach is required to receive coverage for certain drugs. This means that to receive coverage, you may need to first try a proven, cost-effective drug. Remember, treatment decisions are always between you and your doctor. There may be a situation when it is Medically Necessary for you to receive certain drugs without first trying an alternative drug. In these instances, your doctor may request a Step Therapy Exception by following the Prior Authorization process as described above.

If a request for prior authorization or a step therapy exception is incomplete or relevant information necessary to make a coverage determination is not included, we will notify your provider what additional or relevant information is needed to approve or deny the prior authorization or step therapy exception request, or to appeal the denial.

### **WHAT IS MO?**

Drugs with a MO symbol in the Coverage Requirements and Limits column of the Formulary are classified as Maintenance Drugs and can be filled for a 90-day supply at a retail location or through Mail Order.

### **WHAT IS A SPECIALTY DRUG?**

Drugs with a SP symbol in the Coverage Requirements and Limits column of the Formulary are Specialty drugs. A Specialty drug is a drug that the FDA or the manufacturer states must be distributed through a Specialty

pharmacy, drugs that require the Member to have special training or clinical monitoring for self-administration, or drugs that the Pharmacy and Therapeutics Committee determines to be a Specialty medication.

### **WHAT IS AN ORAL ANTI-CANCER DRUG?**

Drugs with an OAC symbol in the Coverage Requirements and Limits column of the Formulary are Oral Anti-Cancer drugs. Notwithstanding any Deductible, the total amount of Copayments and Coinsurance for these drugs does not exceed two hundred fifty dollars (\$250) for an individual Prescription of up to a 30-day supply.

### **WHAT IF A DRUG IS NOT LISTED ON THE FORMULARY? WHAT IS A FORMULARY EXCEPTION?**

Drugs that are not listed on the Formulary are Nonformulary Drugs and are not covered. There may be times when it is Medically Necessary for you to receive a Nonformulary Drug. In these instances, you, your Authorized Representative or your Prescribing Provider may request a Formulary Exception by following the Prior Authorization Request process described above. Once all of the required supporting information has been received, the Formulary Exception Request will be either approved or denied based on medical necessity within 72 hours for non-urgent requests, or within 24 hours in urgent or Exigent Circumstances. If Sharp Health Plan denies a Formulary Exception Request, the Member, an Authorized Representative, or the Provider can file an Appeal with Sharp Health Plan. Nonformulary Brand-Name Drugs approved for coverage will be subject to the Tier 3 Cost Share. Nonformulary Generic Drugs approved for coverage will be subject to the Tier 1 Cost Share. When approved, Sharp Health Plan shall provide coverage of the Nonformulary non-urgent request for the duration of the Prescription, including refills. Sharp Health Plan shall provide coverage, including refills, pursuant to a request based on Exigent Circumstances for the duration of the exigency.

### **WHERE CAN I FILL MY PRESCRIPTION DRUG?**

To find a pharmacy in our network, use our Pharmacy Locator tool. First, register for an account at [www.caremark.com](http://www.caremark.com). The Pharmacy Locator tool is available after you log into your account and will allow you to search for a pharmacy that meets your needs. For example, you can search for a pharmacy close to your home, one that is open 24 hours a day, or one that offers drive-thru service.

Specialty drugs can be filled at CVS Specialty Pharmacy and will be mailed to you. Visit [www.CVSppecialty.com](http://www.CVSppecialty.com) to enroll. You can also take your Specialty drug prescription to a CVS retail pharmacy. Your Prescription will be sent to CVS Specialty Pharmacy to be filled. You may return to your local CVS pharmacy to pick up your Prescription.

Mail order medications can be filled at CVS/Caremark. You can enroll with CVS/Caremark by visiting [info.caremark.com/mailemailservice](http://info.caremark.com/mailemailservice).

### **WHAT IS THERAPEUTIC INTERCHANGE?**

Sharp Health Plan employs therapeutic interchange as part of its prescription drug benefit. Therapeutic interchange is the practice of replacing (with the Prescribing Provider's approval) a Prescription Drug originally prescribed for a patient with a Prescription Drug that is preferred on the Formulary. Using therapeutic interchange may offer advantages, such as value through improved convenience, affordability, improved outcomes or fewer side effects. Two or more drugs may be considered appropriate for therapeutic interchange if they can be expected to produce similar levels of clinical effectiveness and sound medical outcomes in patients. If, during the Prior Authorization process, the requested medication has a preferred Formulary alternative that may be considered appropriate for therapeutic interchange, a request to consider the preferred drug(s) may be conveyed to the Prescribing Provider. The Prescribing Provider may choose to use therapeutic interchange and select a pharmaceutical that does not require Prior Authorization or Step Therapy.

### **WHAT IS GENERIC SUBSTITUTION?**

When a Generic Drug is available, the pharmacy is required to switch a Brand-Name Drug to the generic equivalent, unless Sharp Health Plan has authorized the Brand-Name Drug due to medical necessity. If the brand-name drug is Medically Necessary and Prior Authorization is obtained from Sharp Health Plan at the patient's

request, you must pay the difference in cost between the generic drug and the brand drug in addition to the Cost Share for the corresponding Brand-Name Drug tier. The FDA applies rigorous standards for identity, strength, quality, purity and potency before approving a Generic Drug. Generics are required to have the same active ingredient, strength, dosage form, and route of administration as their Brand-Name equivalents.

In a few cases, the Brand-Name Drug is included on the Formulary, but the generic equivalent is not. When that occurs, the Brand-Name Drug will be dispensed and you will be charged the Drug Tier 1 Cost Share. The enrollee may be required to try an interchangeable product before providing coverage for the equivalent branded prescription drug. Nothing in this section will prohibit or supersede a step therapy exception request.

## **YOU HAVE THE RIGHT TO APPEAL**

Initial denial of pre-service requests:

If you have a pre-service claim and you do not agree with our decision regarding precertification of an inpatient admission or prior approval of other services, you may request a review in accord with the procedures detailed below. If your claim is in reference to a contraceptive, call CVS at 1-855-298-4252. To ask us in writing to reconsider our initial request, you must:

- a. Write to us within six months from the date of our decision; and
- b. Mail or fax your request to:
  - a. Prescription Claim Appeals MC 109, CVS Caremark, P.O. Box 52084, Phoenix, AZ 85072
  - b. Non-specialty appeals fax number: 1-866-443-1172; and
- c. Include a statement about why you believe our initial decision was wrong, based on specific benefit provisions in your Federal Employees Health Benefits (FEHB) Brochure; and
- d. Include copies of documents that support your claim, such as physicians' letters, operative reports, bills, medical records, and explanation of benefits (EOB) forms.

We will provide you, free of charge and in a timely manner, with any new or additional evidence considered, relied upon or generated by us or at our direction in connection with your claim and any new rationale for our claim decision. We will provide you with this information sufficiently in advance of the date that we are required to provide you with our reconsideration decision to allow you a reasonable opportunity to respond to us before that date. However, our failure to provide you with new evidence or rationale in sufficient time to allow you to timely respond shall not invalidate our decision on reconsideration. You may respond to that new evidence or rationale at the Office of Personnel Management (OPM) review stage described in Step 4 of the disputed claims process detailed in Section 8 of your FEHB Brochure.

We have 30 days from the date we receive your written request for consideration to complete one of the following:

1. Grant your request for prior approval for a service, drug, or supply.
2. Ask you or your provider for more information.

You or your provider must send the information so that we receive it within 60 days of our request. We will then decide within 30 more days.

If we do not receive the information within 60 days, we will decide within 30 days of the date the information was due. We will base our decision on the information we already have. We will write to you with our decision.

3. Write to you and maintain our denial.

For urgent services

If you have a serious or life-threatening condition (one that may cause permanent loss of bodily function or death if not treated as soon as possible), and you did not indicate that your claim was a claim for urgent care, then call CVS at 1-855-298-4252. We will expedite our review (if we have not yet responded to your claim); or we will inform OPM so they can quickly review your claim on appeal. You may call OPM at 1-202-606-0737 between 8 a.m. and 5 p.m. Eastern Time.

## **QUESTIONS**

If you have any questions, please contact Customer Care by calling 1-855-298-4252. If you or somebody who you are helping have questions about Sharp Health Plan, you have the right to obtain assistance and information in your language without any cost to you.

## **EXCLUSIONS AND LIMITATIONS TO THE OUTPATIENT PRESCRIPTION DRUG BENEFIT**

The services and supplies listed below are exclusions and limitations to your Outpatient Prescription Drug Benefits and are not covered by Sharp Health Plan:

1. Drugs dispensed by a person or entity other than a Plan Pharmacy, except as Medically Necessary for treatment of an Emergency Medical Condition or urgent care condition.
2. Drugs prescribed by non-Plan Providers and not authorized by Sharp Health Plan.
3. Over-the-counter medications or supplies, except for over-the-counter FDA-approved contraceptive drugs, devices and products, even if written on Prescription, except as specifically identified as covered in this Formulary. This exclusion does not apply to over-the-counter products that Sharp Health Plan must cover as a "preventive care" benefit under federal law with a Prescription or if the prescription legend drug is Medically Necessary due to a documented failure or intolerance to the over-the-counter equivalent or therapeutically comparable drug.
4. Drugs dispensed in institutional packaging (such as unit dose) and drugs that are repackaged.
5. Drugs that are packaged with over-the-counter medications or other non-prescription items/supplies, except for over-the-counter FDA-approved contraceptive drugs, devices and products.
6. Vitamins (other than pediatric or prenatal vitamins listed in this Formulary).
7. Drugs and supplies prescribed solely for the treatment of hair loss, athletic performance, cosmetic purposes, anti-aging for cosmetic purposes, and mental performance. (Drugs for mental performance are covered when they are Medically Necessary to treat medical conditions affecting memory, including, but not limited to, treatment of the conditions or symptoms of dementia or Alzheimer's disease.
8. Herbal, nutritional and dietary supplements.
9. Drugs prescribed solely for the purpose of shortening the duration of the common cold.
10. Dental products and medications prescribed for a dental treatment (such as mouthwash to prevent gum disease) are not covered. Drugs prescribed by a dentist to treat a medical condition (such as antibiotics to treat an infection) are covered.
11. Drugs and supplies prescribed in connection with a service or supply that is not a Covered Benefit, unless required to treat a complication that arises as a result of the service or supply.

12. Travel and/or required work-related immunizations.
13. Drugs obtained outside of the United States, unless they are furnished in connection with Urgent Care Services or Emergency Services.
14. Drugs that are prescribed solely for the purposes of losing weight, except when Medically Necessary for the treatment of severe (Class III) obesity. Members must be enrolled in a SHP approved comprehensive weight loss program prior to or concurrent with receiving the weight loss drug and meet Plan criteria for coverage when prescribed for treatment of severe (Class III) obesity.
15. Off-label use of FDA-approved Prescription Drugs, unless the drug is recognized for treatment of such indication in one of the standard reference compendia (the United States Pharmacopoeia Drug Information, the American Medical Association Drug Evaluations, or the American Hospital Formulary Service Drug Information) or the safety and effectiveness of use for this indication has been adequately demonstrated by at least two studies published in a nationally recognized, major peer-reviewed journal.
16. Replacement of lost, stolen, or destroyed medications.
17. Compounded medications, unless determined to be Medically Necessary and Prior Authorization is obtained.
18. Any Prescription Drug for which there is an over-the-counter product that has the identical active ingredient and dosage as the Prescription Drug, except for over-the-counter FDA-approved contraceptive drugs, devices and products.
19. Services, drugs, or supplies related to abortions, except when the life of the mother would be endangered if the fetus were carried to term, or when the pregnancy is the result of an act of rape or incest.

**The exclusions listed above do not apply to:**

1. Coverage of an entire class of Prescription Drugs when one drug within that class becomes available over-the-counter, except for FDA-approved contraceptive drugs, devices and products.
2. Drugs listed in this Formulary.
3. Over-the-counter products that are specifically covered and listed as a preventive care benefit under federal law. Covered preventive drugs include FDA-approved tobacco cessation drugs and FDA-approved contraceptive drugs, including FDA-approved contraceptive drugs, devices and products available over-the-counter. Preventive drugs are provided at \$0 Cost Sharing subject to certain exceptions. For more information regarding coverage of certain over-the-counter drugs as preventive drugs, please see the Plan Formulary and your FEHB Brochure.
4. Insulin, glucagon and insulin syringes. These items are covered when Medically Necessary, even if they are available without a Prescription. Please see your Formulary and your FEHB Brochure.
5. Items that are approved by the FDA as a medical device. Please see your FEHB Brochure for information about medical devices covered by Sharp Health Plan.

Some drugs are commercially available as both a Brand-Name version and a generic version. It is the policy of Sharp Health Plan that when a generic version is available, the generic version is on the Formulary. Sharp Health Plan does not cover the corresponding Brand-Name Drug and requires the dispensing pharmacy to dispense the Generic Drug unless prior Authorization for the Brand-Name Drug is obtained. In a few cases, the Brand-Name Drug is included on the Formulary, but the generic equivalent is not. When that occurs, the Brand-Name Drug will be dispensed and you will be charged the Drug Tier 1 Cost Share. When an interchangeable biological product is available, the pharmacy may be required to fill your Prescription with the interchangeable biological product unless prior Authorization is obtained and the reference product is determined to be Medically Necessary.
