Preventive prescription drugs including Preferred Generic and prescribed over-the-counter contraceptives	\$0

Notes

¹In a family plan, an individual is responsible only for the single out-of-pocket maximum amount. Cost sharing payments (copayments and coinsurance, but not premiums) made by each individual in a family contribute to the family out-of-pocket maximum. Once the family out-of-pocket maximum is reached, the plan pays all costs for covered services for all family members. Cost sharing payments for all in-network services accumulate toward the out-of-pocket maximum. Copayments for supplemental benefits (Assisted Reproductive Technologies, Chiropractic Services, Adult Vision, etc.) do not apply to the annual out of pocket maximum.

²Includes preventive services with a rating of A or B from the US Preventive Services Task Force; immunizations for children, adolescents and adults recommended by the Centers of Disease Control; and preventive care and screenings supported by the Health Resources and Services Administration for infants, children, adolescents and women. If preventive care is received at the time of other services, the applicable copayment for such services other than preventive care may apply.

³"Other Practitioner Office Visits" includes: Therapy visits, office visits not provided by Primary Care Physicians or Specialty Physicians, and office visits not specified in another benefit category.

⁴Out of pocket cost is based on type and location of service (e.g. outpatient surgery cost-share for outpatient surgery or specialist office visit cost-share for a service received during a specialist office visit).

⁵Of contracted rates

⁶Severe Mental Illnesses include: schizophrenia, schizoaffective disorder, bi-polar disorder (manic depressive illness), major depressive disorders, panic disorder, obsessive-compulsive disorder, Pervasive Developmental Disorder or autism, anorexia nervosa and bulimia nervosa. A child with Serious Emotional Disturbances is as defined in the current Member Handbook. Other mental health conditions include conditions identified as "mental disorders" in the Diagnostic and Statistical Manual of Mental Disorders, Fourth Edition, Text Revision (DSM IV) and as amended in the most recent edition of the Diagnostic and Statistical Manual for Mental Disorders.

⁷Member cost-share will not exceed \$250 per individual prescription of up to a 30-day supply of a covered oral anti-cancer drug. 90-day supply cost share applies to maintenance medications filled by mail order only.

Note: Cost sharing for services with copayments is the lesser of the copayment amount or allowed amount (the maximum amount on which payment is based for covered health care services).

Note: For "Mental Health Services", "Office Visits" cost-share applies to outpatient office visits, psychological testing, and outpatient monitoring of drug therapy. "Group Therapy" cost-share applies to group mental health evaluation and treatment and group therapy sessions. "Other Outpatient Items and Services" cost-share applies to short-term multidisciplinary treatment in an intensive outpatient psychiatric treatment program, partial hospitalization, and home-based behavioral health treatment for pervasive developmental disorder or autism. "Inpatient" cost-share applies to inpatient facility and physician services, mental health psychiatric observation and mental health crisis residential treatment.

Note: For "Chemical Dependency Services", "Office Visits" cost-share applies to outpatient office visits, medication treatment for withdrawal, and individual evaluation. "Group Therapy" cost-share applies to substance use disorder group evaluation and group therapy sessions. "Other Outpatient Items and Services" cost-share applies to day treatment programs, intensive outpatient programs, and partial hospitalization. "Inpatient" cost-share applies to the inpatient facility and physician services and substance use disorder transitional residential recovery services in a non-medical residential setting.
