Endnotes:

If services for a listed procedure are performed by the Contract Dentist, the Enrollee pays the specified Cost Share. Listed procedures which require a Dentist to provide Specialist Services, and are referred by the Contract Dentist, must be authorized by Delta Dental. The Enrollee pays the Cost Share specified for such services.

Optional or upgraded procedure(s) are defined as any alternative procedure(s) presented by the Contract Dentist and formally agreed upon by financial consent that satisfies the same dental need as a covered procedure. Enrollee may elect an Optional or upgraded procedure, subject to the limitations and exclusions of this Plan. The applicable charge to the Enrollee is the difference between the Contract Dentist's regularly charged fee (or contracted fee, when applicable) for the Optional or upgraded procedure and the covered procedure, plus any applicable Cost Share for the covered procedure.

Examples of Optional Services:

- If the Enrollee chooses an Optional or upgraded procedure presented by the Contract Dentist,
 - Where noble (D6061, D6064, D6071, D6074, D6083, D6087, D6099, D6122); high noble (precious) (D6059, D6062, D6066, D6067, D6069, D6072, D6076, D6077); or titanium (D6084, D6088, D6094, D6097, D6194, D6195, D6784) metals are used for an implant/abutment supported crown or fixed bridge retainer,
 - And an additional laboratory fee is charged by the Contract Dentist.

Then the Enrollee will be responsible for the fee charged by the laboratory which equals the difference between the higher cost of the Optional service and the lower cost of the customary service or standard procedure.

Additional Endnotes to Covered California's 2023 Dental Standard Benefit Plan Designs

Administration of these plan designs must comply with requirements of the pediatric dental EHB benchmark plan, including coverage of services in circumstances of medical necessity as defined in the Early Periodic Screening, Diagnosis and Treatment ("EPSDT") benefit.

SCHEDULE B

Limitations and Exclusions of Benefits for Pediatric Enrollees (Under age 19)

Limitations of Benefits for Pediatric Enrollees

1. The frequency of certain Benefits is limited. All frequency limitations are listed in *Schedule A, Description of Benefits and Cost Shares for Pediatric Enrollees*. Additional requests, beyond the stated frequency limitations, for prophylaxis (D1110, D1120), fluoride (D1206, D1208), and scaling (D4346) procedures shall be considered for prior Authorization when documented medical necessity is justified due to a physical limitation and/or an oral condition that prevents daily oral hygiene.
2. A filling (D2140-D2161, D2330-D2335, D2391-D2394) is a Benefit for the removal of decay, for minor repairs of tooth structure or to replace a lost filling.
3. A crown (D2390 and covered codes only between D2710-D2791) is a Benefit when there is insufficient tooth structure to support a filling or to replace an existing crown that is non-functional or non-restorable and meets the five+ year (60+ months) limitation.
4. The replacement of an existing crown (D2390 and covered codes only between D2710-D2791), fixed partial denture (bridge) (covered codes only between D6211-D6245, D6251, D6721-D6791) or a removable full (D5110, D5120) or partial denture (covered codes only between D5211-D5214, D5221-D5224) is covered when:
 - a. The existing restoration/bridge/denture is no longer functional and cannot be made functional by repair or adjustment, and
 - b. Either of the following:
 - The existing non-functional restoration/bridge/denture was placed five or more years (60+ months) prior to its replacement, or
 - If an existing partial denture is less than five years old (60 months), but must be replaced by a new partial denture due to the loss of a natural tooth, which cannot be replaced by adding another tooth to the existing partial denture.
5. Coverage for the placement of a fixed partial denture (bridge) (covered codes only between D6211-D6245, D6251, D6721-D6791) or removable partial denture (covered codes only between D5211-D5214, D5221-D5224):
 - a. Fixed partial denture (bridge):
 - A fixed partial denture is a Benefit only when medical conditions or employment preclude the use of a removable partial denture.
 - The sole tooth to be replaced in the arch is an anterior tooth, and the abutment teeth are not periodontally involved, or
 - The new bridge would replace an existing, non-functional bridge utilizing identical abutments and pontics, or
 - Each abutment tooth to be crowned meets Limitation #3.
 - b. Removable partial denture:
 - Cast metal (D5213, D5214, D5223, D5224), one or more teeth are missing in an arch.

 - a. Extensive or rampant caries are exhibited in the radiographs, or
 - b. Severe periodontal involvement indicated, or
 - c. Numerous teeth are missing resulting in diminished chewing ability adversely affecting the Enrollee's health.

7. Maxillofacial prosthetic services (covered codes only between D5911-D5999) for the anatomic and functional reconstruction of those regions of the maxilla and mandible and associated structures that are missing or defective because of surgical intervention, trauma (other than simple or compound fractures), pathology, developmental or congenital malformations.
8. All maxillofacial prosthetic procedures (covered codes only between D5911-D5999) require prior Authorization for medically necessary procedures.
9. Implant services (covered codes only between D6010-D6199) are a Benefit only under exceptional medical conditions. Exceptional medical conditions include, but are not limited to:
 - a. Cancer of the oral cavity requiring ablative surgery and/or radiation leading to destruction of alveolar bone, where the remaining osseous structures are unable to support conventional dental prosthesis.
 - b. Severe atrophy of the mandible and/or maxilla that cannot be corrected with vestibular extension procedures (D7340, D7350) or osseous augmentation procedures (D7950), and the Enrollee is unable to function with conventional prosthesis.
 - c. Skeletal deformities that preclude the use of conventional prosthesis (such as arthrogyposis, ectodermal dysplasia, partial anaodontia and cleidocranial dysplasia).
10. Temporomandibular joint ("TMJ") dysfunction procedure codes (covered codes only between D7810-D7880) are limited to differential diagnosis and symptomatic care and require prior Authorization.
11. Certain listed procedures performed by a Contract Specialist may be considered to be primary under the Enrollee's medical coverage. Dental Benefits will be coordinated accordingly.
12. Deep sedation/general anesthesia (D9222, D9223) or intravenous conscious sedation/analgesia (D9239, D9243) for covered procedures requires documentation to justify the medical necessity based on a mental or physical limitation or contraindication to a local anesthesia agent.
