

Diabetes and hypertension (18 years and older)

Preventive Care Checklist

We're here to help you make your health a priority. To get started, use our preventive care checklists highlighting some of the exams, vaccines and screenings that can help you and your loved ones avoid or minimize potential health problems.¹ No matter how healthy you are today, having a discussion with your doctor about preventive care can make a difference in the long run — for you and the people you care about.

Exams		
Periodic Well Visit with your PCP (schedule at least 2 months in advance)	18 and older	<input type="radio"/>
Medication Review (with an RN, pharmacist or your PCP)	18 and older	<input type="radio"/>
