

SHARP Health Plan

Women (18 years and older)¹

Preventive Care Checklist

Discuss your checklist with your doctor to develop your own personalized preventive care plan. Your doctor will help you determine which tests and health screenings are best for you based on your age, gender, health status and family history.

Visits

¹ Some COVID-19 vaccines are authorized under EUA (emergency use authorization). ² The information in these checklists includes recommendations adapted from the following sources as of July 2024 and is subject to change: Preventive services with a rating of A or B from the U.S. Preventive Services Task Force; immunization for children, adolescents and adults recommended by the Centers for Disease Control and Prevention; and preventive care screenings for infants, children, adolescents and women supported by the Health Resources and Services Administration. Also check the age-related preventive health checklist. Other immunizations may be recommended by your provider depending on vaccine and indication. ³ For ages 27 – 45, shared clinical decision-making between member and PCP. ⁴ One-time screening. ⁵ With a 20-pack-a-year smoking history and currently smoke or have quit within the past 15 years. ⁶ Recommended for women 60 years and older if they have additional risk factors. ⁷ 19 and older if immunodeficient or immunosuppressed because of disease or therapy. ⁸ Based on HRSA/WPSI effective 1/1/2023. ⁹ Increased risk is person with chronic lung or heart disease, weakened immune system, living in a nursing home or long term care facility, severe diabetes or severe obesity.
