SHARP Health Plan

- CIS-10 is an **all-or-nothing measure**, and partial immunization does not count toward performance.

What Counts as Gap Closure

- A CIS-10 gap is considered closed when:
 - All required vaccines are completed and documented in Epic, Cozeva or through California Immunization Registry (CAIR).
 - Immunizations are visible through:
 - Claims or encounter data
 - Supplemental data (e.g., registries)

How the Program Works

- SHP provides **gap lists** to medical groups
- No additional reporting is required from PCPs
- SHP tracks closure using administrative and supplemental data
- Incentives are paid based on **verified gap closure**
 - **Verification will be based on data documented or submitted in Epic, Cozeva or California Immunization Registry**
